

"A wide range of textures defines this kitchen and dining space in a new Kennebunkport home, a deeply personal design with a strong reference to Craftsman style. Built with reclaimed beams, brickwork, and flooring, the layered mood of the room is matched by the rich textures of Willa Venema's encaustic paintings. The warm brown tones of the beamed ceiling, floor, and furnishings are complemented by the artist's vibrant blues, and her evocative scenes are a reminder that the Maine coastline is nearby."
